

# TOBY'S FUND FOR REPRODUCTIVE HEALTH EQUITY

Toby Shussin Levin (1918-2013) was a dedicated advocate of McHenry County and the belief that every child born should be wanted and cared for. This fund was named in her memory.

Toby's Fund is a non-profit that helps fund Abortions, Emergency Contraception and Pregnancy Prevention for those who can't afford the services.

We fund non-profit agencies, not individuals and our services are only for residents of McHenry County Illinois.

We believe that a person who is capable of getting pregnant also can determine their own health decision for themselves.

**Fifty percent of all pregnancies in this county are unplanned.** We believe people should have the ability to decide their own health choices without outside judgement

Toby's Fund is an inclusive environment. **We are #BeyondTheBinary.**

**Toby's Fund is a 501(c)(3) tax deductible non-profit.** Our goal is to make sure that no one is denied the opportunity to make their own health decisions about reproductive health needs, be it prevention, contraception or abortion, because of financial inequities. These services are all legal for all in Illinois, but not available if a resident lacks the financial resources.

Since 2013, hundreds have received support through Toby's Fund, including assistance for over 200 pregnant people this year alone. As we traverse this post-Roe world, Toby's Fund has increased its services beyond abortion assistance to also financing emergency contraception and prevention.
